

Seamlessly arrange rides with Uber

80% of Uber for Business customers recommend Uber Central*

Central allows businesses to request rides for customers and employees—even if they don't have the Uber app—simply by entering the rider's pickup and dropoff locations in the Central dashboard. Riders can review trip details and monitor their trip through the app or SMS.

With Central, you can:

- Request one-way or round-trip transportation
- Request rides to transport products
- Schedule a ride or a series of recurring rides up to 30 days in advance
- Add multiple riders and locations
- Monitor the ride and know when your rider is dropped off
- Receive monthly activity reports

Elevate your business by offering:

Rides for hotel guests

Facilitate airport pickups and dropoffs, arrange visits to popular tourist spots, and more. (Guests don't need to have the Uber app.)

Rides for executives

Manage executive transportation with ease. Use round-trip rides to help them get to and from meetings, and use scheduled rides to help ensure they won't be late.

Employee rides

Help workers get to and from their shifts, move employees between worksites, or transport teams at conferences and events.

VIP rides

Provide VIPs and special guests with an exceptional experience by choosing a premium ride.

Item delivery

Offer curbside delivery of packages, gifts, and more, all from your Central dashboard.

Benefits for your business:

Improve your customer experience

Delight your guests, clients, and customers and provide a white-glove experience that will keep them coming back.

Control costs

Reduce transportation costs by paying only for the rides you need, eliminating the cost of shuttle fleets and vehicle maintenance fees. Also receive monthly reports that can help you keep track of spending.

Get real-time visibility

Manage and track multiple trips from one dashboard and get real-time updates about where each rider and driver is.

Improve operational efficiency

Save the time you spend driving employees or customers around—instead, leverage a range of ride options and get connected to a driver quickly.

Access 24/7 support

We're always here to help. You can access useful resources in our Help Center or reach out to our Support team from the dashboard for human assistance.
